

focussed *on SRM innovation*

apsolut GmbH is the first consulting company in Germany to focus solely on optimizing business processes for strategic and operational purchasing in the area of SAP Supplier Relationship Management (SRM). For this very reason, it ranks among the leading consulting companies active in this area.

apsolut will accompany you from the initial concept through to potential analyses, process consulting, and effective project implementation.

We focus our consulting expertise on strategic/operational purchasing, e-procurement, vendor management, master data harmonization, and implementation of individual customer solutions.

Furthermore, we span various lines of business and concentrate on providing consulting services to midsize and large companies that deploy SAP R/3 software. Our customers are primarily active in the following industrial sectors: vehicle manufacturing and parts supply, consumer goods, the chemical industry, mechanical engineering, energy, gas and water supply, and general industry.

apsolut focuses on end-to-end purchasing consulting and will offer you the best knowledge mix in terms of processes, classic IT, and applications.

Our consulting (Professional Services) focuses on two areas, namely apsolut Process Consulting (Processes) and apsolut Solution Consulting (Solutions).

Contact

To learn more about our range of consulting services and solution modules, send an e-mail to: info@ap-solut.com.

apsolut
focussed on SRM innovation

recognize!

Our experts from Professional Services have extensive knowledge, acquired from over 80 SAP SRM customer projects, along with a vast wealth of experience.

In our numerous SRM projects, we have developed effective methods for identifying optimization potentials in the procurement environment, performing TARGET/ACTUAL comparisons, and performing requirements analyses, SWOT analyses, and ROI analyses, all of which can be easily applied to your company. Strategic, tactical procurement

solve!

apsolut GmbH supports its customers from conceptual design through to implementation and enhancement of SAP SRM processes. In particular, our service portfolio includes the following purchasing-related subject areas: Self-Service Procurement, Catalog Management, Service Procurement, Supplier Collaboration, Bidding & Auctioning, Contract Management, and Spend & Supplier Analysis.

It goes without saying that our service portfolio also includes project-related subject areas such as Change Management, Test Management, and Project/Program Management as well as Support & Operation of the SRM landscape.

Together we can make your vision of a "Purchasing & Vendor Portal" a reality!

develop!

apsolut has highly experienced SAP SRM developers who can incorporate your specific processes into an SAP SRM system without the need for modification. Their vast wealth of experience means that they are best placed to meet the technological challenges of the SRM system.

Thanks to our many years of experience in the field of SRM, our development area now contains "apsolut solution modules" that are used specifically to optimize standard SAP SRM processes with lasting results.

Contact us for more information about our solution modules and to discuss how they can be used in your company.

lasting!

Our name is synonymous with identifying and effectively implementing potentials, achieving lasting results, and providing competent advice beyond project implementation.

Ask our satisfied customers about us. We would be happy to arrange a meeting for you. Approximately 80 well-known companies have placed their trust in apsolut's high level of professional and IT competence.
